Re: MidWest Vascular Access

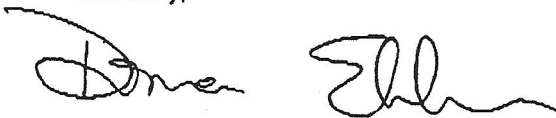

To Whom It May Concern:

It is my pleasure to write a letter in support of the nomination of MidWest Vascular Access for the "25 Under 25" Award from Thinking Bigger Business Media. I have had the opportunity to work with MidWest Vascular Access, specifically their Chief Nursing Officer, Michelle Lingenföser Followell RN, CRNI, for the past 2 years at Centerpoint Medical Center where they provide bedside central venous line placement for our inpatients. Michelle is professional in all aspects of her work, and takes great care to assure her employees follow all hospital policies and procedures, and keep patient safety as a priority in their daily routine.

The positive aspects of having MidWest Vascular Access service available are many and include, the ability to discharge patients in a timelier manner, having after hour coverage, and freeing our Radiologists to perform more technical procedures. The MidWest Vascular Access clinicians always respond to our needs quickly, and provide exceptional technical skill while treating patients with respect and compassion.

I recommend MidWest Vascular Access without reservation for this award. The exceptional service they provide for our hospital continues to be of great value. Please feel free to contact me if I can provide additional information.

Sincerely,

Donna Ehler  
Director, Cardiovascular Services
