To Whom It May Concern:

We have used the services of Midwest Vascular Access for quite some time and they have always provided us and our patients with nothing but the utmost professional treatment and highly skilled service. They are very accommodating to our needs and the needs of our patients.

We use the services of Midwest Vascular Access for the placement of central lines. This service is a great asset not only to our patients but to the facility overall. They provide after hours coverage to enable us to dismiss patients earlier, give needed medications in a very timely manner and relieves the physicians and technologist to be able to perform other procedures that can only be performed by them.

Midwest Vascular Access is very deserving of this award.

Sincerely,

Pamela Handlan, RT (R)(CV)(CT)
